

**4 concepts**

# 4-concepts-

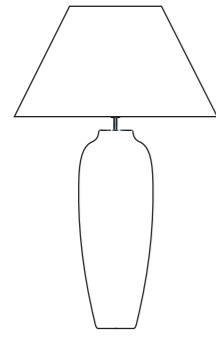

We would like to interest you in our selection of unique HANDMADE glass lamps designed and produced by our company, Touch Point under the brand named 4concepts.

We are proud of the skills and creativity of the people who work for and collaborate with us. Our HANDMADE glass products are manufactured in Poland, where there is a long tradition of high quality hand forming glass recognized worldwide.

In addition to the regular offer we are ready to design and produce the lamps at the individual request of our clients.

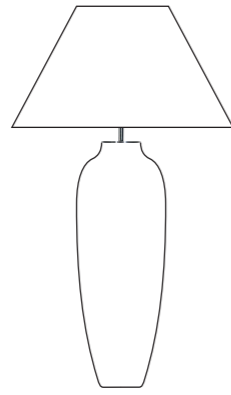

Please refer to the presentation of our products

## TECHNICAL DESCRIPTION

### Warning!

The lamp base is handmade by highly skilled craftsmen. Glass may contain air bubbles and other defects traditionally found in one-off structures.

Craftsmanship guarantees the uniqueness of your product.

Bases of the lamps which are made from multicolour glass may differentiate in saturation of each colour, which is a result of a complex formation process.

Colours of the shades may slightly differ from reality.

Do not lift and move the lamp by holding the bulb holder !!!

The electrical wire (Z-mount) cannot be replaced.

Lamp bases and shades may slightly vary due to the manual nature of its production.

## PRESTIGE LINE

When designing Prestige Line lamps we had a clear goal in mind: create objects which captivate with their sophistication and stun with the mastery of form, whatever the cost and labor needed to produce them.

Perfection in every detail and beauty of the finest particular are the defining feature of lamps in this range.

Prestige Line means lamps which may be housed surrounded by authentic pieces of art.

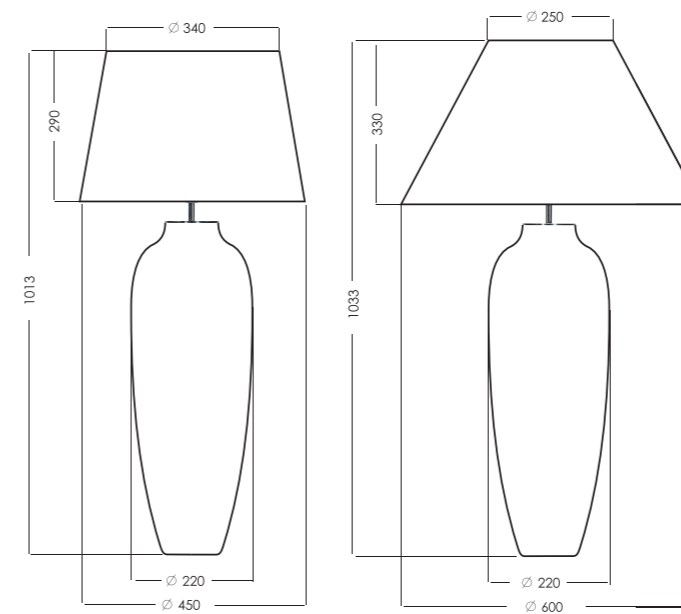

**TECHNICAL DETAIL**  
 E27 bulb holder, without bulb;  
 EU plug, 220 - 240 Voltage,  
 60W max. (incandescent bulb);  
 CE standard.  
 The shade can be leveled  
 horizontally with the joint  
 under the light bulb.

**MATERIALS**  
 Base of the lamp -  
 HANDMADE, tricolor black, amber  
 and transparent glass painted  
 glossy oyster luster  
 Bulb holder - chromed steel  
 Electric wire - black in cotton enlase  
 Shade of the lamp - high quality fabric

Attention:  
 The code of the lamp consists  
 of 9 numbers. The first six numbers  
 determinate lamp model and the last  
 three numbers determinate shade,  
 eg.:L208062240 means model  
 L208062 and shade A240.  
**MADE IN EU**

### TECHNICAL DETAILS

E27 bulb holder, without bulb;  
EU plug, 220 - 240 Voltage, 60W max.  
(incandescent bulb); CE standard.

### MATERIALS

Base of the lamp - HANDMADE transparent glass covered with the glossy transparent copper coating;  
Bulb holder - chromed steel;  
Electric wire - black in cotton enlance  
Shade of the lamp - high quality fabric;

### Attention:

The code of the lamp consists of 9 numbers. The first six numbers determinate lamp model and the last three numbers determinate shade, eg.: L203461229 means model L203461 and shade A229;

# PREMIUM LINE

When designing Premium Line lamps we endeavored to develop sublime objects, yet economical in form, with shapes filled with natural harmony.

Although their lines are moderate you may clearly feel an underneath energy dormant in each of these lamps.

Premium Line range is an offer for those who strive to follow the most recent trends in the world design.

**TECHNICAL DETAILS**  
 E14 bulb holder, without bulb;  
 EU plug, 220 - 240 Voltage  
 40W max. (incandescent bulb);  
 CE standard.

**MATERIALS**  
 Base of the lamp - **HANDMADE**:  
 transparent glass or transparent glass  
 painted in transparent black  
 or painted in transparent copper  
 Bulb holder - chromed steel  
 Electric wire - transparent pvc  
 Shade of the lamp - high quality fabric

Attention: The code of the lamp  
 consists of 9 numbers. The first six  
 numbers determinate lamp  
 model and the last three numbers  
 determinate shade, eg.:  
 L046011222 means model  
 L046011 and shade A222

TECHNICAL DETAILLES  
E27 bulb holder, without bulb;  
EU plug, 220 - 240 Voltage  
60W max. (incandescent bulb);  
CE standard..

### MATERIALS

#### Ravenna and Parma:

Base of the lamp - HANDMADE  
bicolor transparent and black glass  
Bulb holder - steel painted in black

#### Ravenna Transparent:

Base of the lamp -  
HANDMADE transparent glass  
Bulb holder and pipe inside the lamp  
base - steel painted in copper  
Electric wire - black in cotton enlance  
Shade of the lamp - high quality  
fabric

### Attention:

The code of the lamp consists  
of 9 numbers. The first six numbers  
determinate lamp model and the last  
three numbers determinate shade,  
eg.:L0034102220 means model  
L034102 and shade A220

The intensity and the size of black  
pigmentation is different in each  
lamp because they are all handmade,  
which guarantees their individual  
colour pattern.

**HANDMADE** transparent glass  
 Bulb holder and the pipe  
 inside the base - chromed steel  
 Electric wire - transparent pvc  
 Shade of the lamp - high quality fabric

**TECHNICAL DETAIL**  
 E27 bulb holder, without bulb;  
 EU plug, 220 - 240 Voltage,  
 60W max. (incandescent bulb);  
 CE standard.

**Attention:**  
 The code of the lamp consists  
 of 9 numbers. The first six numbers  
 determinate lamp model and the last  
 three numbers determinate shade,  
 eg.:L010031206 means model L010031  
 and shade A206

MADE IN EU
